

MAILBOXES

All mailboxes in Gift Plantation are of a common design and must be purchased through the Homeowners Association. Existing homeowners are asked to make their own repairs and repaint their mailbox periodically.

Here are a couple of sheetmetal companies on Johns Island that will make most repairs:

A&R Sheetmetal 945 Main Road (843) 559-9597

Williamson Welding 749 Main Road (843) 559-2555

New Mailboxes: If a brand-new mailbox is needed, one can be purchased from King Metals. They come unfinished, so painting will be required upon receipt (see below for paint color). Link for purchasing is as follows. These also include a paper chute.

Doors: New doors can also be purchased from King Metals. They fit our existing mailboxes. Link is as follows. Again, these also come unfinished and will need to be painted upon receipt.

Flags: There are several flag options that can be purchased from Amazon. However, before you purchase, check with Karen Stark. While supplies last, there are a few at the clubhouse that could be purchased through her. The following links provide other options. Some are the screw on type; others are stick on.

Numbers: There are a couple of options for purchasing numbers:

Amazon:

For this option choose 1.5 inch and color: white

Fast Signs on Savannah Highway in West Ashley also makes mailbox numbers. Please make sure you bring a picture of your old numbers (or your neighbor's numbers) and specify white with the following dimensions: 1.5W X 1.75H

Paint color: Rustoleum **dark hunter green**. Can be found at most hardware stores and/or Home Depot or Lowe's. Make sure the color is **NOT** hunter green. There is a difference.

Powder Coating: If you want to have your mailbox powder coated (and not have to worry about painting it again), there is a company in Goose Creek called Marchant

Powder Coating. With this option, you would have to take it out of the ground and physically bring it up there. Fee is approx. \$300. The following is the link:
